Experience

SAP

Young Professionals Program (YPP)

UAE
May 2026 – Jul 2026

- Completed the SAP YPP gaining hands-on experience in SAP Business Suite, SAP Generative AI, Business Data Cloud, and Clean Core principles.
- Applied end-to-end business processes across Finance, Human Resources, Procurement, Production, Sales, and Service in SAP Business Suite.
- Developed enterprise AI skills through SAP Generative AI Hub. Which includes prompt engineering, AI workflows, model orchestration, and data grounding techniques.
- Prepared for SAP Certified Generative AI Developer and SAP Certified Implementation Consultant (E2E Business Processes for Business Suite) certification exams via instructor-led training and independent study.
- Participated in advanced communication, personal leadership, onboarding, and personal branding workshops to strengthen professional and workplace skills.

Applab

Business Analyst

Qatar
Oct 2024 – Apr 2025

- Collaborated on the Mehanty and Meydan project in multiple phases of the software development lifecycle.
- Prepared Software Requirements Specifications (SRS), Business Requirements Documents (BRD), and UI/UX documentation.
- Conducted frontend and backend testing to validate functionality, usability, and technical requirements.
- Coordinated with cross-functional teams to align business requirements with development objectives.
- Supported quality assurance efforts by identifying issues and verifying system compliance with project specifications.

ArchitWeb

Backend Developer

Malaysia
Jul 2023 – Oct 2023

- Developed backend applications using Laravel and GraphQL.
- Collaborated with cross-functional teams using Jira and Clockify to manage tasks and track project progress.
- Fixed application issues through debugging and problem-solving.
- Implemented responsive web interfaces using Bootstrap and integrated APIs with OpenAPI.
- Used Metabase for data visualization and reporting for project insights.

Creatixa Multimedia Solution

Malaysia

Application Developer

Mar 2021 – Jun 2021

- Developed mobile applications using React Native, Node.js, and Visual Studio.
- Built and tested two mobile application prototypes.
- Integrated third-party packages and implemented Google AdMob for in-app advertising.
- Prepared a mobile application proposal, including project objectives and functional requirements.
- Implemented React Native development practices to deliver and test application features.

Skills

- **Data Science:** R, Python, SQL, TensorFlow, PyTorch, Jupyter Notebooks, Tableau, Power BI, Metabase, data analysis, data visualization and creating dashboards using D3.js, CSS, and HTML.
- **Business Analyst:** Business Requirement Document (BRD), Software Requirements Specifications (SRS), UI/UX Document, QA Testing for frontend and backend.
- **Other:** Visual Studio, GitHub, Jira, Microsoft Office 365, draw.io, Figma, Clockify.
- **GitHub:** [Ayat Al Khulaqi](#)
- **Interests:** predictive maintenance, computer vision, and robotics.
- **Certificates:** [Link](#)

Language

- Arabic
- English.
